

Linda Weiser Friedman
Associate Dean, Zicklin School of Business
Baruch College of the
City University of New York

Linda Weiser Friedman is Associate Dean for Academic Affairs and Professor of Statistics and Computer Information Systems at the Zicklin School of Business, Baruch College (City University of New York). She is on the doctoral faculty in Business and Computer Science at the Graduate Center of the City University of New York. Dean Friedman received the Ph.D. degree in Operations Research in 1983 from Polytechnic Institute of New York, now Polytechnic University, in Brooklyn, New York. Her scholarly articles have appeared in such journals as Behavioral Science, Journal of Systems and Software, Simulation, Journal of Statistics Education, and Journal of Internet Commerce. She has published two professional books, Comparative Programming Languages (Prentice Hall) and The Simulation Metamodel (Kluwer). Her research interests include social media, simulation, humor, disabled populations, ethics, and the spiritual workplace. She has taught courses – at the undergraduate, graduate and doctoral levels – in statistics, simulation, computer programming, operations research, information systems and social responsibility, and social media.
